

Welcome to The Future Leadership Program

Since The Wall Street Journal Europe established its Future Leadership Program, we have maintained a strong, ongoing commitment to excellence in education. We provide a global perspective, helping students develop skills in finance, economics, international business and more, which prepares them for success in their chosen careers. Every day of the academic year, Europe-based students receive a valuable learning tool: **The Wall Street Journal Europe**.

The Future Leadership Institute

As part of the Future Leadership Program the Future Leadership Institute organizes an on-going series of seminars and networking opportunities structured to bring together industry leaders and university students in forums where they can exchange their views and concerns on local and global issues and find solutions.
